Data Co-Op by CoreLogic

Description:

Data Co-op™ from CoreLogic® connects brokers and agents to other multiple listing organizations across the country. Quickly access agent-to-agent data not available on public-facing web sites from associations located in different regions of the country. Simplified multiple listing access makes it easy to market properties across the nation and help clients find properties to buy in distant locations.

Benefits:

- Access listings from across the nation
- Market your properties across the country
- Access RealAVM™ property values
- Access the most accurate and complete property information available
- Help clients find properties to buy outside of your local market

Data Sharing Services

Device Compatibility:

The Data Co-Op works on Apple/Mac, iPad and PC platforms and all popular browsers.

How to Access:

Login to Realcomp's Dashboard and choose RCO3®. Then choose "Additional Data" and "CoreLogic MLS Data Co-Op".

Cost Information:

Included in your Realcomp MLS Subscription at no additional cost.

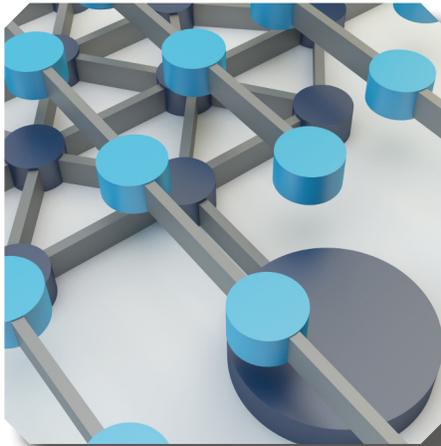

Data Sharing with Other Local MLSs

Description:

Realcomp shares MLS data with several other MLS organizations located throughout Michigan. Data sharing between MLSs eliminates the need for a REALTOR® to subscribe to more than one MLS organization in order to access the combined MLS data.

Realcomp performs duplicate listing checks and other data quality-related routines on all MLS data in our database, including data share listings, to improve their linkability to our statewide public record database.

For an updated list of MLS organizations Realcomp shares MLS data with, please [visit the Data Sharing page](#) on our corporate website.

Benefits:

- Access to more MLS data
- More cooperation/compensation opportunities
- Cost savings (no longer need to subscribe to more than one MLS)
- More efficiency (less databases/systems to access)

Data Sharing Services

How to Access:

You automatically have access to the MLS data that is shared through the GLR when you access Realcomp's products and services.

Cost Information:

Included in your Realcomp MLS Subscription at no additional cost.

ListTrac

Description:

ListTrac is an online platform that helps real estate professionals gain enhanced insight into their listing activity and ROI regarding advertising efforts.

ListTrac provides real estate brokers and agents with user engagement metrics pertaining to their listings on the Internet. This includes listing traffic, views, inquiries, and more, enabling real estate professionals to make future marketing decisions based on tangible information and action-based results.

The new ListTrac functionality helps connect MLS subscribers with the information and insight they need to build their business strategically and allocate resources to the initiatives that provide the greatest return.

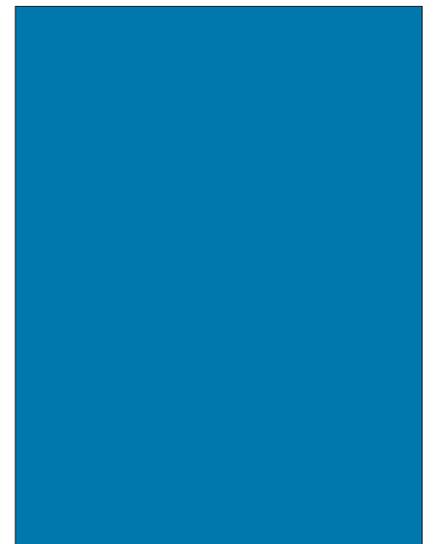

ListTrac allows Realcomp Subscribers to review the following information:

- **Views:** Shows the number of times a listing has been viewed through various websites
- **Markets:** Displays the physical location of those who have viewed the listing
- **Visitors:** Shows the number of daily views listings have captured through various websites, including third party sites
- **Inquiries:** Displays how often potential buyers have requested more information on particular listings
- **Saved Listings:** Shows the number of listings that have been saved as 'favorites' through various websites
- **Shares:** Shows the sites from which listing "shares" (to social media) are being generated
- **Inventory:** Demonstrates Realcomp's current inventory by location
- **Active Reports:** Shows which Realcomp reports are most used by other Realcomp REALTORS® in combination with your listings

Remine Docs+

Description:

MEET THE NEXT GENERATION OF TRANSACTION MANAGEMENT: REMINE DOCS+

From document creation to back-office submission and review, Docs+ provides one intuitive, cloud-based collaborative tool for all of your transaction management needs.

Track your transaction to-dos from within a single document. This cloud-based solution allows cooperating agents to make in-line changes—making it easy to collaborate with others in real-time. It also keeps track of your version history so that you can review and audit edits later.

Key Features:

- **Create Forms:** Create and fill out forms and facilitate digital signings with your clients and cooperating agents.
- **Check Lists:** Stay organized and keep your to-do list connected to your transactions, forms, and clients.
- **Document Packages:** Pre-built and customized collections of forms to easily set-up new transactions. Fully customizable, “templated” collections of prefilled forms that make offer generation quick and easy.
- **Clause Kits:** Repeatedly adding clauses/stipulations to documents one-by-one is arduous and can lead to costly errors. Agents can save time with Clause Kits collections of clauses curated by brokers and agents that can be added directly to contracts in a few clicks.

Remine Docs+ - Continued

- **Smart Form Technology:** Transaction documents are “linked” to save time on repetitive field entries. Save additional time with automatically integrated signature and initial fields for all parties. Warnings and alerts highlight potential errors prior to sending and signing, preventing needless mistakes and potential amendments.
- **Multi-Party Collaboration:** All involved parties can make in-line changes in one cloud-based, collaborative document.
- **Notifications and Highlights:** Automated email notifications give agents peace of mind and keep them engaged in the transaction’s progress.
- **Smart Form Highlighting:** Makes reviewing the changes made by cooperating agents quick and easy.
- **Document History:** Remine Docs+ offers an easy-to-access in-app edit/change summary and a downloadable audit report where every signature, initial and edit is meticulously logged and tracked from start to finish.
- **Broker and Administrative Features:** Brokers and admins can easily distribute fully customizable checklists, clauses, and documents.
- **For Designated REALTORS®/Broker Owners:** Add your custom Brokerage Forms to Docs+ by completing Realcomp’s Broker Requisition Form.

Free Floor Plans by CubiCasa

Description:

We're excited today to announce that free CubiCasa floor plans are now available to all MLS Subscribers of the Realcomp MLS.

CubiCasa is a revolutionary mobile app that produces detailed and attractive floor plans from a simple five-minute scan of a home. It's being used around the world and by more than 40 US-based MLS organizations. The app requires no training and no extra equipment; it will work with almost any smartphone or tablet you already own. Because it's so easy to use, it can be used widely by agents, appraisers, real estate photographers and more.

Per the annual NAR Homebuyers and Sellers Survey, consumers consistently rank floor plans as their most desired listing content after standard photos and property data. Floor plans help home buyers really understand how a home will fit their needs, at a glance, like no other digital asset.

Benefits:

- Free floor plans (for properties up to 5,000 square ft.) that include room dimensions and total square footage;
- A 20% discount on optional add-ons such as fixed furniture,
- Appraisal GLA, rush orders, 3D Floor Plans and Video Renders, or large homes;
- The ability to edit and customize floor plan outputs to your needs; and
- Access to ***CubiCasa's directory of real estate photographers***, if you prefer to work with a photographer on your listing. Additionally, CubiCasa can be used by any photographer you already work with.

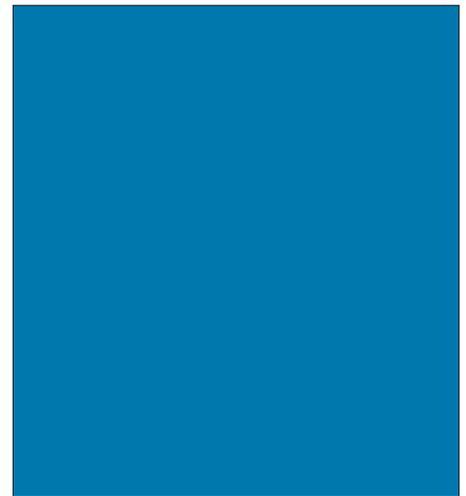

MLS System Tools

Device Compatibility:

Works with virtually any Smart phone device from 2015 or newer.

How to Access:

Login to Realcomp's Dashboard, choose the CubiCasa icon and create an account.

If you already have a CubiCasa account, you can affiliate it to the Realcomp MLS through your CubiCasa Profile settings.

Cost Information:

Included in your Realcomp MLS Subscription at no additional cost.

MarketStats

Product Description:

We know statistics matter to REALTORS® and how important they can be in providing market-related facts to consumers for what may be their largest financial transaction ever. That is why Realcomp provides the MarketStats application by ShowingTime for Realcomp REALTORS®. MarketStats features a bevy of market research tools including:

- **InfoSparks**—A mobile ready, simple-to-use interactive stats product that allows you to combine local geographies (up to 4) with customizable housing variables, time-frames, and market metrics in order to generate charts that support your recommendations at listing presentations
- **FastStats**—A tidy, map-based interface that displays local market updates, monthly indicators, lender mediated reports, market-watch reports, and regional data sheets. Simply select from a drop-down menu or from a map of the local region and there a report will be waiting for you!

Benefits:

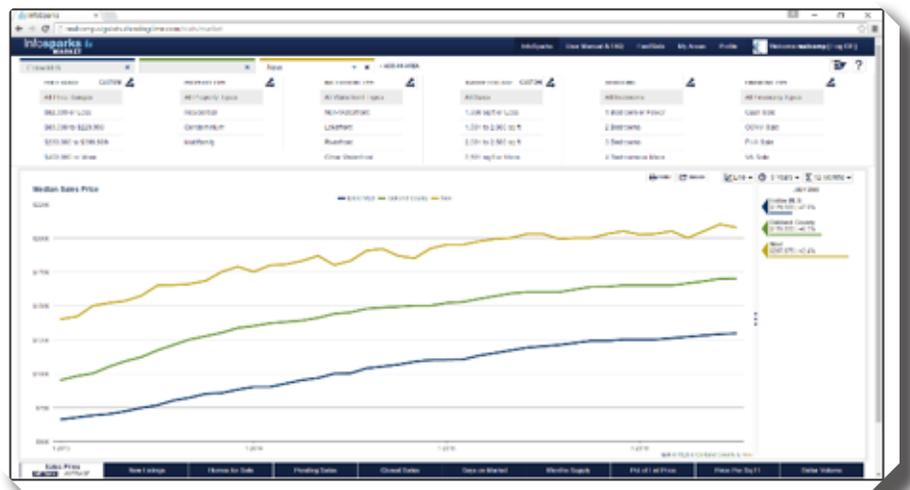

- Access a clean, concise, and easy-to-use statistical interface that helps to provide a broader understanding of prevailing trends in local housing markets.
- Make speedy assessments with the right data and the right tools.
- Get your statistical needs met without having to spend hours creating your own data tables and charts.
- Manage client expectations by answering the emotional point of price.
- Emphasize your expertise and knowledge by “sharing” stats on your website, in blog and social media posts, and through e-mail marketing campaigns.

2024 REALCOMP TECHNOLOGY GUIDE

RCO3® (Matrix™)

Description:

Used by more than half of all real estate agents in North America, RCO3® (Matrix™) is lightning fast, providing the instant results top producing agents demand. RCO3® is mobile, tablet, and computer-friendly, making it easy to access when and where you want. North America's most prominent real estate organizations choose RCO3® above all others.

Benefits:

Powerful Insights

The property display includes current listing data, tax/assessment data, transaction/document history, area schools, flood data, and more. The interactive map lets you “Walk the block” to see brief tax and listing information on the parcels where data is available. The maps also include comprehensive overlays, including flood, lot dimensions, valuations, sales activity, foreclosure activity, and more.

Work Smarter

Matrix offers shortcuts, a speed search bar, listing carts, multitasking, automatically saves all recent searches for quick access from any page, and more for maximum efficiency. Leverage tax data without launching a separate program, which means learning one system, not two.

Speed

RCO3® is fast. See for yourself. It displays the elapsed time for every search in hundredths of a second.

Clients Will Love It Too

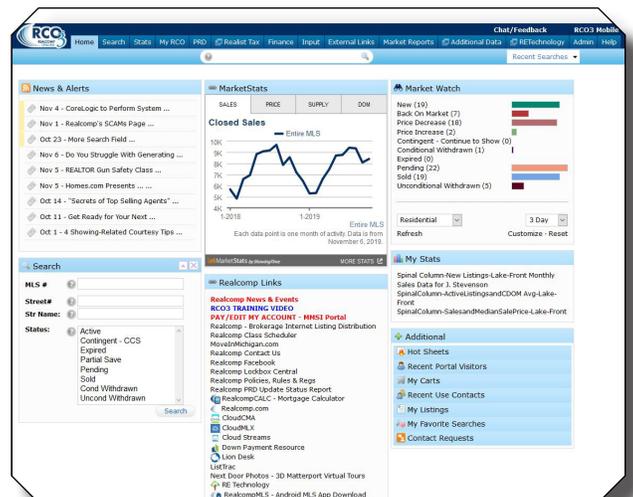

RCO3® provides newly designed, fully responsive, real estate portals for clients, fostering improved customer service and communication. RCO3® also offers a variety of options when it comes to automatically emailing listings to clients.

RCO360°

Description:

What is RCO360°? It's a search option in the latest version of RCO3® that unifies listing and Realist® property data, allowing MLS Subscribers to search across both data sets simultaneously. The result is a truly property-centric search that gives you a 360-degree view of properties in your market.

Benefits:

- **More Efficient Workflow** – Leverage Realist® tax data without launching a separate program and leaving the MLS workflow.
- **Easy and Familiar** – Search, view results, print and email reports for tax data the same way as listings. All searches and displays are created inside of RCO3®/Matrix providing a consistent and familiar user experience.
- Create a **CMA (including On and Off-MLS Sales)** by pulling comparable properties through the combination search.
- The HTML interface works well on computers and tablets – no plugins required.
- A tax search is now available within RCO3® using the same fields as in Realist, but in a **familiar RCO3®-style search** form.
- Enjoy the **stability and speed of RCO3®/Matrix**.
- **Complete property display** includes current listing data, tax/assessment data, transaction/document history, area schools, flood data, and more. Users can choose which content to print.
- **“Walk the block”** to see the whole neighborhood. The interactive maps now display brief tax and listing information on the parcel where data is available. Users can zoom and pan, switch between street and satellite views, enable layers, and click on parcels to view neighboring property information. Comprehensive map overlays include flood, highlighted parcel, lot dimensions, valuations, sales activity, foreclosure activity, and more.
- **FEMA Flood Zone information** and a map of the property area showing the Flood overlay is available. The combined history shows all listing activity for the property, as well as sale, mortgage, and foreclosure history from public records.
- Print **mailing labels** from tax data.

SentriLock Electronic Lockbox System—Cont'd

Description - Cont'd:

When real estate agents experience the SentriLock advantage, anything else seems ... well, lacking. Discover the SentriLock advantage.

Never Miss a Showing

In seconds, you can open the key compartment, release the shackle, assign the lockbox to a listing, view access logs and more with the SentriKey® Real Estate app. In less time than it would take to unlock the door and start your vehicle, you could open the door to new sales with SentriLock.

Enjoy Secure Controlled Access

You can use the app to generate One Day Codes, or grant SentriConnect® access to out-of-the-area agents, contractors, appraisers and others who may need secure temporary access. You will always know who entered the home, and when, through instant notifications and access logs.

Keep it Secure

The SentriLock lockbox is built with the highest quality materials and is engineered to protect your homeowner's most valuable investment. It also features Bluetooth® connectivity, which gives you access to a home even when you're out of cell service range.

Keep Yourself Safe

The app has an Agent Safety feature that automatically and discreetly alerts your designated emergency contact(s) when you do not feel safe or cannot confirm you're safe.

ShowingTime for the MLS

Description:

ShowingTime for the MLS is an MLS system add-on tool that Realcomp provides to our MLS Subscribers. It helps real estate professionals schedule showings online in order to save them from unnecessary phone calls and busy work. ShowingTime for the MLS saves time, requires fewer phone calls, generates more showings, helps agents provide better client service, better accountability and better security ... all leading to a more efficient home sale.

ShowingTime for the MLS Features Include:

- Interactive calendar shows “open hours” to help the showing agent know when the listing is available to show
- Showing agents can request either specific showing times or a window of time when they want to show a listing.
- ShowingTime for the MLS remembers confirmation preferences of the showing agent for rapid-entry of showing requests.
- An online note-pad allows the showing agent to ask questions or add comments as they would over the phone.
- Email notifications to the showing agent, listing agent and/or office front-desk improve accountability and eliminate uncertainty.
- Showing instruction mode allows for instant showing confirmation in order to save time and get the listing shown.
- Online reports act as a reference to the office or listing agent.
- Listing activity reports help the listing agent to manage the seller’s expectations.
- Optional showing feedback tool system will send an email to the showing agent with a web-based feedback form on the day of the showing.
- Consumers are able to make showing appointments while viewing properties on [MoveInMichigan.com](https://www.moveinmichigan.com) (when offices have this feature turned on in the MLS).
