REALCOMP LAUNCHES INTRAMATRIX PLATFORM AND DATA SHARING WITH FMLS OF GEORGIA

FARMINGTON HILLS, Mich. – Realcomp II Ltd., Michigan's largest Multiple Listing Service (MLS), today introduced IntraMatrix, a data sharing platform available through CoreLogic that allows MLSs on the Matrix platform to share system access and MLS data with one another.

With Realcomp's agreement with FMLS of Georgia (Greater Atlanta), Realcomp MLS Subscribers will be able to access listings in FMLS, at no additional cost, and vice versa. The arrangement brings additional data access to MLS Subscribers of each service, more listing access for their clients, and increased listing exposure for sellers in both markets. It also creates new referral opportunities for REALTORS® with clients who plan to purchase real property in the other market.

Realcomp is the only MLS in Michigan that offers the RCO3®/Matrix system to its more than 14,000 MLS Subscribers. FMLS, is the first and largest MLS in the state of Georgia, has more than 57,000 members. To access FMLS through IntraMatrix, Realcomp Subscribers can login to RCO3®/Matrix and choose More > Data Sharing > First MLS (Greater Atlanta) from the system menu.

For questions about this service, please contact Realcomp's Customer Care Department at (866) 553-3430.
