Realcomp II Ltd. Selects Remine Add/Edit and Docs+ Transaction Management Platforms to Streamline Single Point of Entry and Transaction Management for Michigan REALTORS®

VIENNA, Virginia, January 13, 2021—Remine, a leading real estate technology company, announced today that Realcomp II Ltd. a Michigan-based Multiple Listing Service, has selected its Listing Input and Docs+ Transaction Management Platform for its more than 16,800 REALTOR® subscribers.

Remine technology will be the first that is integrated with Realcomp's new and improved RESO compliant data infrastructure which houses and serves listing content (listing data, photos, and documents) to associated technologies. It will give MLS subscribers the familiar ability to input listings via their desktop or mobile device and power tool-of-choice for MLS vendor partners that need the ability to integrate the data into their systems while remaining compliant with MLS business rules.

Remine's Docs+ Transaction Management Platform was selected to replace the current Transaction Management offering and will both modernize and simplify the Transaction Management process for brokers and agents.

"The Remine team continues to deliver and they have proven their ability to offer stability within state-of-the-art solutions. Over the years, our relationship has grown in strength and trust through the successful delivery and support of leading-edge data and software," said Karen Kage, CEO at Realcomp II Ltd. "The addition of these two new systems allows us to continue to build upon the Remine modules that seamlessly integrate to drive adoption and REALTOR® satisfaction."

"We are excited to see the continued growth of this partnership," said Tim Dain, VP and GM of MLS at Remine. "We know how competitive the MLS software landscape is and the selection of these products continues to showcase our modular approach to building an MLS ecosystem that fits the needs of our MLS customers."

Remine Add/Edit and Docs+ Transaction Management are expected to join Remine Pro and become available to Realcomp MLS Subscribers in Q2 of 2021.
