**Realcomp II Ltd. Expands Michigan REALTORS®  
Public Record Data Plan**

FARMINGTON HILLS, MICH. — Realcomp II Ltd. announced the expansion of its Public Record database for Michigan to include eight (8) additional counties. Realcomp is the state's largest real estate Multiple Listing Service (MLS) provider.

The expansion encompasses Berrien, Cass, Ionia, Kalamazoo, Kent, Muskegon, and Ottawa counties which are located in the southwestern area of the state, and Midland County, located just northwest of Saginaw.

Realcomp's expansion agreement with First American Core Logic provides Realcomp with the ability to add up to sixteen new counties of data each year for its subscribers. The agreement also allows for the development of a public record database for the entire lower peninsula of Michigan with completion of this project anticipated by the end of 2010.

"The expansion of our public records database continues our core goal of providing the most accurate, up to date and complete information to our REALTOR® members, and in turn, to their home-buying and selling customers," said Karen Kage, CEO of Realcomp II Ltd.

Realcomp provides over 11,000 REALTORS® with access to more than 1 million on-market, off-market and historical (i.e. more than 2 years old) listings for Southeast Michigan.

*Realcomp is headquartered in Farmington Hills, Michigan and has continuously operated as a full-service provider to the real estate industry, offering Multiple Listing Services, real property data, products and training since 1994.*
