

## Accessing RCO3 Saved Searches, Auto Emails and Listing Carts through Homesnap

The Saved Searches, Auto Emails and Listing Carts that have been saved in RCO3 can now be accessed through the Homesnap mobile app on either a phone or tablet. This makes it much more convenient to access this information while away from your computer. Be advised that Auto Emails are found in the selection along with Saved Searches. The searches cannot be modified from the app. Changes can only be made when logged into RCO3 directly.

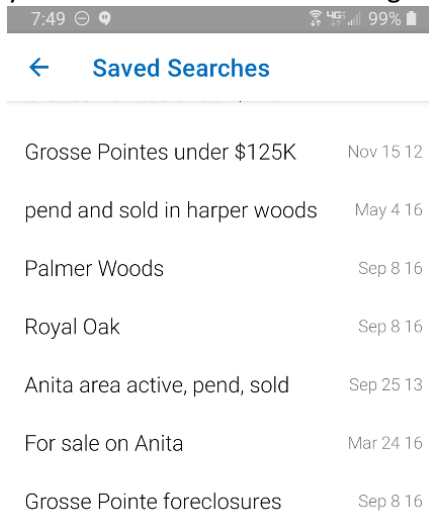

To view Saved Searches/Auto Emails and Listing Carts, click in the search bar at the top of the Homesnap page. You will get the RCO3 login box and have to log in to RCO3.

You will then be given options for MLS Saved Searches and MLS Listing Carts.

Selecting MLS Saved Searches will display a list of your saved searches and auto emails from RCO3. Selecting Listing Carts will display a list of your carts from RCO3. Once displayed, click on the search that you want to run to see the listings.

If you have additional questions, please contact Realcomp's Customer Care at (866) 553-3430.
